

PURPOSE PASSPORT™

AN IMMERSIVE PROGRAM THAT TEACHES STUDENTS HOW TO BUILD A MEANINGFUL LIFE AND CAREER IN THE 21ST CENTURY.

‘How we spend our days is, of course, how we spend our lives.’
- Annie Dillard

21st Century Work : A Changing Landscape

Our young people are preparing to enter a workforce facing accelerated change. This change is taking place against a background where fear and doubt dominate public conversation around the future of work, and the future of our planet. With so much in question, our young people need our help to thrive and navigate their way with confidence through a changing landscape. The Purpose Passport empowers young people to imagine and explore their most meaningful career and life aspirations. Drawing on latest findings from neuroscience and positive psychology, 21st century career theory and design thinking methodology, intrepid travellers of the Purpose Passport will explore the three factors that contribute to meaning:

My Heart

My Story

My Impact

Lessons of the heart inspire imaginations, activate creativity, and enhance self-awareness to uncover each student’s authentic identity. Students explore the world of story to understand the workings of the mind and form a coherent narrative around the why, the what and the how of their career aspirations. Finally, through impact, students experience first hand the power of purpose, designing and delivering projects that serve as an experiential template for future career endeavours.

**‘The world needs all the trained minds and bright futures it can get,
and it needs them everywhere’**
- Salman Khan, *The One World Schoolhouse: Education Reimagined*

Program Delivery Options

Face to face student workshops

Train-the-trainer

Online Immersive Program
